The 2014 Gaza Crisis Appeal presents the response of the humanitarian community to meet the most urgent humanitarian needs that have arisen as a result of the current emergency in the Gaza Strip, declared by the Humanitarian Coordinator on 7 July 2014. These include the needs for over 200,000 people who have become internally displaced in Gaza to date. The impact of the crisis on the people of the Gaza Strip has been huge with so far, over 1,000 Palestinians killed, over 6,200 injured (mostly civilians) and some 3,700 homes totally destroyed or severely damaged.

The Gaza Crisis Appeal was developed in consultation with the State of Palestine, in order to ensure coherence with Palestinian strategies for response.
