

Participants	Thomas Ølholm (NRC); Angela Hinrich (FAO); Katie Rickard (Reach Initiatives); Elisa Persico (WFP); Paul Kinuthia (WVI); Davide Rossi (gFSC) Damien Joud (gFSC)		
Absent	Emily Farr (Oxfam); Fabien Tallec (FSC-CC Haiti); Bruno Minjauw (gFSC)		
Agenda points	Action points	Follow up	Priority
Covid 19 WG update	Update was given to the SAG by Damien. SAG members proposed the C19 to discuss and review the scope and duration of the group initially conceived to be a temporary WG), and the scope & duration of each result/taskforce: e.g. which result/task-force should be kept, which one can be merged into other groups (e.g. Agr.WG, PQWG, etc); Any results to be closed down (e.g. R4)?	Damien to discuss with Cyril (C19 chair) and add to the next C19 meeting an agenda point on the scope/duration of the group; some options can be presented on the plenary of gFSC partners meeting	high
Agenda for the gFSC Partners' meeting	The date of 11-12 November suits all SAG participants: the structure is confirmed. DAY ONE to be "celebrative" with high level panelist (e.g. FAO/WFP DGs, Jan Egeland, etc) and DAY TWO being more operational. There was a consensus from SAG members for having a discussion on: Day ONE "famine focused", since the current debate at global level (e.g. DFID, World Bank, etc.) - the interventions in DAY ONE should be linked to FS Coordination; key workds to address the themes for the panelists: Famine, Fragility of Food Systems, Pandemic impact on Fragile States (poverty) and Coordination; see also: https://www.glopan.org/resources-documents/fragile-contexts/ Day TWO: consensus of having a dedicated session for the SAG (to be discussed at the next SAG meeting), GNAFC (but with the linkages with FSC & partners engagement), voices from the field (was proposed a thematic area on Access or Fragile States/Fragile Food Systems), and TWG report to plenary On SAG Membership/Elections: Discussion about the upcoming elections - two SAG members will rotate (REACH and Oxfam reached the 2 years); it was suggested to send out a message to all partners to inform/remind them about the upcoming elections, so that discussions among NGOs can start prior to the gFSC partners' meeting. In addition, FAO and WFP focal points flagged the	Additional inputs (if any) from SAG members to be sent to Davide (thematic areas, voices from the field) gFSC team to contact the proposed University/professors for DAY one; Formal invitation to be sent to Jan Egeland (gFSC) Next SAG meeting to be dedicated entirely to gFSC Partners' meeting Agenda and SAG issues (elections, new members, SAG Chair, etc) gFSC to send out a message to all partners about the upcoming elections & process FAO/WFP to discuss about the focal points rotation	high
PRWG	There was a consensus among SAG members for the group to be closed, since the Survey shows that there is a little interest, and no organisation volunteered for chairing the group; in addition to merge PRWG under another WG seems not to be the best solution as it will burden the already activated WGs (notably PQWG); however it is important that the other WGs will discuss how to integrate elements of Preparedness and Resilience into their	WGs to discuss if/how to integrate the Preparedness and Resilience component into their workstreams/task-forces	Medium
AoB - GNAFC	On 10th of August an ad hoc meeting took place with SAG and GNAFC focal point; as previously agreed the GNAFC should be kept as an agenda point at each SAG meeting in order to get updates; meeting with TSU can be organised at ad hoc basis	Davide to re-send to SAG the message shared by Riccardo (gFSC) after the last meeting; gFSC team to follow up with GNAFC focal point and ensure a regular update	High
