

Grand Bargain Cash Workstream

Aid organisations and donors commit to:

Invest in new delivery models which can be increased in scale while identifying best practice and mitigating risks in each context. Employ markers to track their evolution.

01

Increase the routine use of cash alongside other tools, including in-kind assistance, service delivery (such as health and nutrition) and vouchers. Employ markers to measure increase and outcomes.

02

03

Build an evidence base to assess the costs, benefits, impacts, and risks of cash (including on protection) relative to in-kind assistance, service delivery interventions and vouchers, and combinations thereof.

Collaborate, share information and develop standards and guidelines for cash programming in order to better understand its risks and benefits.

04

05

Aim to increase use of cash programming beyond current low levels, where appropriate. Some organisations and donors may wish to set targets.

06

Ensure that coordination, delivery, and monitoring and evaluation mechanisms are put in place for cash transfers.

Cash Workstream Workshop May/June 2017

Priorities

- 1 The current use of cash and scaling up
- 2 Cash coordination
- 3 Risks
- 4 Measuring cash
